My Office can help with:

- Permanent Residency
- Canadian Citizenship
- Canada Revenue Agency
- Veterans' Affairs
- Canada Child Benefit
- Canada Pension Plan
- Old Age Security
- Guaranteed Income Support
- Employment Insurance
- COVID-19 Support Programs
- Federal Government Grants

DEAR NEIGHBOURS,

I have enjoyed attending many events in our community that have allowed me to meet with many of you: commemorating Armenian Remembrance Day, celebrating Tamil New Year, riding the Maple Syrup Adventure Train, volunteering on Earth Day community cleanups, attending Iftar and Eid events, and having meetings and conversations with you in Kitchener-Conestoga.

I had the privilege on two occasions of inviting cabinet ministers to Kitchener-Conestoga to meet with our businesses and stakeholders. I am always proud to showcase the fantastic people and companies we have in our community.

I enjoyed sitting down with representatives from the KW Federation of Agriculture. We spoke about protecting our land and water and discussed ways of supporting our farmers and our agriculture sector. Programs like our Agriculture Climate Solutions program and the Agricultural Clean Technology program will help strengthen our agricultural sector, fight climate change, and protect the environment.

Another group I was honoured to meet with was local firefighters. I shared my support for the upcoming Bill C-224 – an act to establish a national framework for preventing and treating cancers linked to firefighting. We must continue to protect those who keep us safe.

It was rewarding to visit schools and have conversations with students virtually. Feel free to let me know if there is a school you would like me to visit. I am always inspired to meet and hear from our next generation of leaders.

I appreciate every opportunity to connect with you. I am here to support you, your business, and your loved ones. Please reach out to my office by emailing me at Tim.Louis@Parl.gc.ca or calling 519-578-3777.

These are meaningful moments to me, and I look forward to seeing you in our community in the months to come.

@TimLouisKitCon

Prime Minister Trudeau visits Kitchener-Conestoga

It was an honour to host Prime Minister Trudeau as we visited families in Kitchener-Conestoga. They graciously welcomed us into their homes and invited us to sit at their kitchen tables. The kitchen table: where big ideas start, and day-to-day decisions are made. It's a place where we watch our children grow up and become adults. It's where we share stories and get advice. It's where disagreements may happen but get worked out. It's a place where life happens.

I am proud to live in a country where our Prime Minister can visit a family at their kitchen table and hear what is important to them.

Together, the Prime Minister, families and I discussed our plan to address housing affordability.

Our government will:

- Help to double the number of new homes built
- Support Canadians in buying their first homes
- Protecting renters and buyers
- Curbing unfair practices

\$11.6 Million Investment in High-Speed Internet

We are investing to help connect more households in Kitchener-Conestoga. \$11.6 million dollars has been approved for projects in our townships. Communities include Crosshill, Dorking, Linwood, New Hamburg, and Lisbon.

This will bring fast and reliable broadband access to more homes and businesses.

I will continue to work hard to ensure communities here are connected to the high-speed internet they need.

In the Community

I attended the opening of the Waterloo International Airport Domestic Arrivals Terminal. Funding through the Canada Community-Building Fund will allow the airport to accommodate increased traffic, create jobs, and help local businesses grow and compete.

The Prime Minister and I visited the Islamic Centre and a school in our region. Thanks to everyone for welcoming us!

Minister Bennett and I stopped by Saturn Power in Baden to learn about the innovative work they are doing. They are a leader in the renewable energy business, focusing on energy storage and utility-scale solar projects.

I celebrated Tamil New Year in Kitchener with the Tamil Cultural Association. It was a wonderful night of food, music, dance and conversations with friends!

I enjoyed meeting the Basari brothers who co-founded ApplyBoard. It was great to see the incredible work they do to empower students from around the world.

We visited The Hub Bicycle Shop in the region with the Minister of Transportation, Omar Alghabra. We discussed supports for small businesses in the region.
